Sir:

Samsung Electronics Co., Ltd., having a current place of business at 416, Maetan-dong, Yeongtong-gu, Suwon-si, Gyeonggi-do, Republic of Korea, the owner of 100 percent interest in the present application, hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the present application that would extend beyond the expiration date of the full statutory term as defined in 35 USC 154 and 173 of prior patent No. 7,493,552 ("the prior patent"), as the term of the prior patent is presently shortened by any terminal disclaimer. The owner hereby agrees that any patent granted on the present application shall be enforceable only for and during such period that any patent granted on the present application and the prior patent are commonly owned. This agreement runs with any patent granted on the present application and is binding upon the grantee, its successors, or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the present application that would extend to the expiration date of the full

statutory term as defined in 35 USC 154 and 173 of the prior patent, as the term of the prior patent is presently shortened by any terminal disclaimer, in the event that the prior patent later:

- (1) expires for failure to pay a maintenance fee,
- (2) is held unenforceable,
- (3) is found invalid by a court of competent jurisdiction,
- (4) is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321,
- (5) has all claims canceled by a reexamination certificate,
- (6) is reissued, or
- (7) is in any manner terminated prior to the expiration date of its full statutory term as presently shortened by any terminal disclaimer.

The undersigned is empowered to act on behalf of the owner, Samsung Electronics Co., Ltd., whose ownership of the present application was established by the Statement Under 3.73(b) filed on November 22, 2009, which is in the image file wrapper of the present application.

The present application is a continuation of Application No. 10/612,415. An assignment from the inventors of Application No. 10/612,415 to Samsung Electronics Co., Ltd., was recorded in the United States Patent and Trademark Office on November 19, 2003, at Reel 014722, Frame 0446. MPEP 306 states as follows:

In the case of a division or continuation application, a prior assignment recorded against the original application is applied (effective) to the division or continuation application because the assignment recorded against the original application gives the assignee rights to the subject matter common to both applications.

Accordingly, pursuant to MPEP 306, Samsung Electronics Co., Ltd., is also the assignee of the present continuation application by virtue of the assignment recorded against parent Application No. 10/612,415 referred to above.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

The terminal disclaimer fee of \$140.00 required by 37 CFR 1.20(d) is being paid on even date herewith.

Please charge any fees under 37 CFR 1.16 and 1.17 that may be required for this paper only to Deposit Account 50-5113 in the name of North Star Intellectual Property Law, PC.

Respectfully submitted,
